THE GULF AND STRAIT OF HORMUZ NAVIGATIONAL INFORMATION

Amid ongoing developments, it is not always possible to ensure that all ADMIRALTY Products are completely up-to-date for new dangers or changes to aids to navigation and routing measures. Mariners are encouraged to pay close attention to navigational warnings in place and advised to exercise particular caution when navigating in The Gulf region and the Strait of Hormuz.

CHART PRODUCTION TOOLS

The UKHO is introducing new production tools to assist in the creation of its SNCs.
Some SNC content will change as a result of this. More details can be found at:

https://www.admiralty.co.uk/charts/additional-information.

Affected charts will display a note showing the same link.

⊙ denotes chart available in the ADMIRALTY Raster Chart Service series.

I

NM WEBSEARCH QR CODE

We are aware that on some paper charts the QR code in the lower left corner which links to NM Websearch is returning an error. If this occurs, you can use the direct URL

https://www.ukho.gov.uk/nmwebsearch/ or the alternative QR code:

UKRAINE NAVIGATIONAL INFORMATION

Owing to insufficient information, it is not always possible to ensure that ADMIRALTY Nautical Publications are completely up-to-date for new dangers or changes to aids to navigation.

Mariners are therefore advised to exercise particular caution when navigating in Ukrainian waters.

BALTIC SEA CHART DATUM 2000 (BSCD2000)

UKHO Products and Services, including foreign charts, in the Baltic Sea region are changing to a new vertical reference system for depth and height information. During this transition period, Charts may be referred to either mean sea level or the new BSCD2000. For further information please contact the national charting authority and see ADMIRALTY Sailing Directions.

This note is to be reviewed in 2030.

PHOTOGRAPHY

ADMIRALTY publications utilise imagery from a wide variety of sources, mariners, port authorities and other users. The UK Hydrographic Office (UKHO) welcomes new imagery of navigational aids, landmarks, coastline, approaches to and from ports and berths. Imagery from the mariner's point of view is especially helpful. Images can be sent to the UKHO using the email:
publications.queries@ukho.gov.uk
Please include the name and location of the feature in the image and how the image should be accredited within ADMIRALTY publications.
